M A I A

DESIGNED BY  
SÉRGIO BATISTA

# M A I A

---

The Maia armchair is a new way to relax. Thanks to its solid wood structure with staples and PVA glue, it is resistant and does not creak. The seat and backrest are made of MDF, have elastic straps and medium density foam covered with Ecosoft foam blanket. All this brings even more comfort and practicality. What more does an armchair need? Ah, yes: your home.

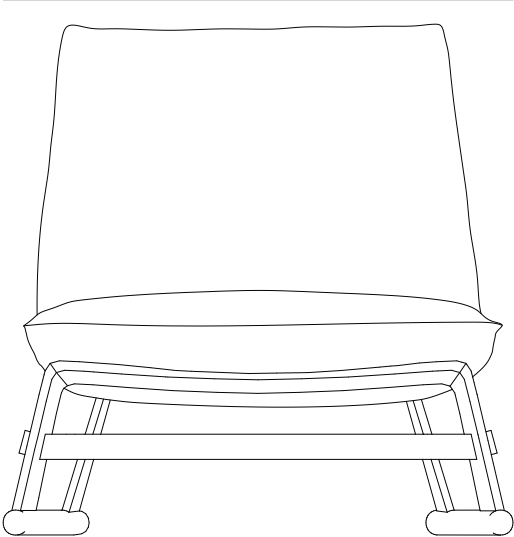

## STRUCTURE

*Armchair with solid wood exterior fixed with staples and PVA glue suitable for wood, thus generating resistance and avoiding creaking. Seat structure and backrest is made from MDF. The seat and back have elastic straps and medium density foam covered with Ecosoft foam blanket, which provides great comfort and practicality.*

## FINISHING

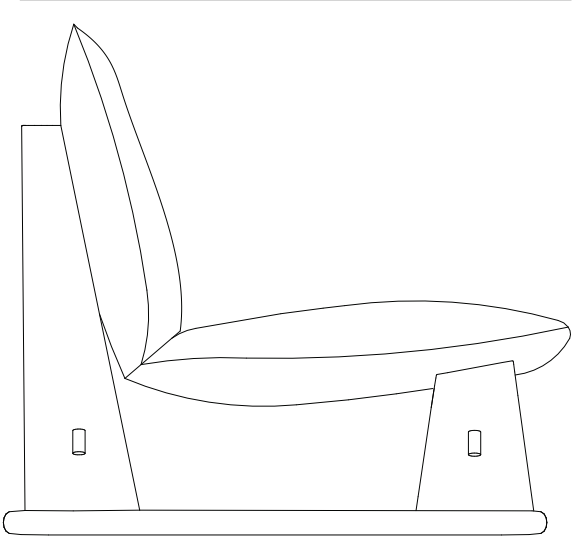

*079 Tc - 077 Tc - 149Tc- 145 MC - 148 MT.  
Covers: Uultis fabrics, including Leather.*
