CIGNO

DESIGNED BY
SÉRGIO BATISTA

Inspiration, ventilation and coziness: the Cigno sofa is full of comfort, as its seat and backrest have elastic straps and medium density foam covered with Ecosoft foam blanket. The backrest cushions are also loose and composed of polyester fiber and foam tuft. In the structure, the sofa is made of reforested eucalyptus wood and MDF sheets, with a super-resistance that prevents creaking. Aside from all this, it has solid wood arms and feet, which gives it an even more modern look.

STRUCTURE

The product has a structure made of reforested eucalyptus wood, MDF sheets, assembled with steel staples and fixed with PVA glue (suitable for wood), thus providing great resistance and avoiding creaking in the product. The model also has solid wood arms/feet, which gives it a modern look and, mixed with the comfort of the cushions, is cozy. The seat and back have elastic straps and medium density foam covered with Ecosoft foam blanket. The backrest cushions are loose and composed of polyester fiber and foam tuft, which provides great comfort and practicality.

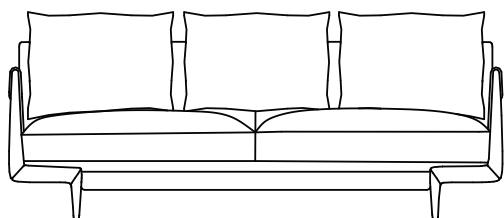

FINISHING

Finishes for the wooden arms: 079CV - 119 - 128 - 145 - 148. Approved covers: All Uultis fabrics, including leather. Restricted striped fabrics.
